I guess I should have done more research. This was basically a preview to the complete story book. I didn't notice that this book is called a 'concept board book' and it's basically 5 board like pages with a sentence each. I tried reading this to my 2 year old and we spent more time getting settled in bed and tucking her in than what it took to read it. She was so upset that it was over so quickly.

Neither my 2 nor my 3 year old care for these books.

I bought this book for a little girl I used to babysit. The little girl & her mom enjoy doing things that maybe not every mom & daughter do now a days. I love that Ladybug Girl & Her Mama do things outdoors together. The book is short, but when you are reading it to a 2 year old, you want something that can keep their attention before they run off & do something else. Would recommend!

This was a mother's day gift from my daughter to her Mom and they loved it. However I can understand fans of the books being disappointed that the text and illustrations are not originals and recycled from the earlier books. I feel like that should have made that known to potential buyers. Nevertheless this is a sweet story of a wonderful day shared between a mama & her ladybug girl. You can't find any fault with that.

These books are LOVELY. I read them with my five year old daughter. She has ladybug girl wings, PJs and a doll. The story doesn't have hard words, is very playful and insouciant. I love this series of books and have purchased four so far :)

too young for a 4 yr old. my daughter loves Lady bug girl so I bought this one thinking she would like it, but it was way below her age group. should have gotten it 3 yrs ago.

Exactly what I thought it would be and then some. The cover is 3D with glitter which was a pleasant surprise. Great for the price!

As a parent and a high school English teacher, this book is not well written, even for a one year old. There are so many more amazing children's books out there, don't waste your money on this one. I don't think I have ever been so disappointed by a children's book, and we've read a ridiculous amount...

If you have to choose between this one or a different story, buy a different ladybug girl story.
