Labor Relations: Development, Structure, Process (Irwin Management)

Synopsis

Labor Relations: Development, Structure, Process by John Fossum presents the history and development of labor relations, bargaining structures and issues, and the process of negotiations and contract administration. The 12th edition addresses the increasing importance of health care costs, access, legislation, and regulation. Fossum explores the structure and internal politics of union organizations, union organizing and union avoidance, while reflecting and balancing the viewpoints of both labor and management, including economic, institutional, and behavioral perspectives.

Customer Reviews

John Fossum received his PhD from Michigan State University. He is an established author in the labor relations/personnel area. He is currently a full professor and the director of the Industrial Relations Center at the University of Minnesota.

I received the text book in a timely manner, it served its purpose for the class I was and I paid less than what I would have had to pay for it through my school.

Rental with Prime for students is so cheap and easy. I love this program!
