Customer Reviews

"In this novel, London once again delivers an infectious blend of action, science, and tween romance to readers of all ages. The author's son, Sean, also returns with gorgeous illustrations accompanying the narrative's truly magical moments, like when orcas—swam right between our kayaks, their dorsal fins slicing the surface!—Aaron's growing pains are visible not only regarding his crush on Lisa, but also whenever his father applauds Cassidy (Aaron thinks: 'œlt

was like a needle stuck in my skin hearing my dad praise him like thatâ •). After presenting various opinions, the book addresses the central conflict of poor refugees seeking better lives thoroughly and compassionately. Aaron endears himself to audiences, not by being an awkward kid but a blossoming young man. An impressive sequel about an aquatic journey that stands on its own while building on the first trip." --Kirkus Reviews
