I've used three books in the series and I feel the same about all of them. The grammar covered and the activities are great. The students actually enjoy the material. It's the design of the book itself that can be offsetting. I found it to be very cluttered. The size of the font and the font itself did not agree with each other. And the color scheme is just not the best. I know it may sound like a petty thing to take a star out for, but I would get dizzy staring at this book day in and day out for my classes, trying to find where I left off.

ok

Very good

This book is great for early ESL learners. As far as helping me for my class. I wish it had all the beginning grammar stuff you learn as a child. It might help a little bit for future ESL teachers to get more into the material.

The book arrived at my home in perfect conditions.

This book is easy to follow. I like the warm up activities for the grammar charts and the listening practice.

Excelent book

The book is very new. I like it.
