Advanced First Aid, CPR, And AED (Orange Book)

Synopsis

This manual is developed for use within advanced first aid, CPR, and AED training courses offered through Emergency Care & Safety Institute. Based on the 2015 International Consensus Guidelines for Cardiopulmonary Resuscitation (CPR) and Emergency Cardiac Care (ECC), Advanced First Aid, CPR, and AED, Seventh Edition is ideal for use within college-level courses designed to train individuals in first aid, CPR, and AED. More than a stand-alone text, this student manual is the center of an integrated teaching and learning system that offers many resources to better support instructors and prepare students. This manual includes: Coverage of the 2015 CPR and ECC Guidelines: Clear, concise direction on how to perform CPR and use an AED during an emergency. Current information on injuries and illnesses: Core information for first aiders presented in a clear and straightforward format. New and updated content on the use of hemostatic dressings, application of tourniquets, administering epinephrine, dental care, and more. Navigate 2 Advantage Access unlocks an interactive eBook and student practice activities and assessments. A unique Access Code is included with each new print student manual.

Book Information

Customer Reviews

When taking the course, I discovered how this can be a self-saving learning experience for me. Learning how to use this knowledge on myself and others will have save countless of lives and time. Now I know that ignorance is not an excuse anymore.

Glad I rented this book, came in very handy for my cpr class

Received book in excellent condition

Helpful to pass my CPR Class

:)

Just as described.

Brand new!

Great book, I was reading through it and I found out some very interesting things about the human body... But it wasn't for long because right after class I forgot it under my seat, when doing practice CPR demonstrations. I came back to look for it and it was gone someone from my class or class after me stole my book.
