Product Dimensions: 12 x 7.4 x 0.8 inches

Shipping Weight: 2 pounds

Average Customer Review: 4.7 out of 5 stars 26 customer reviews

Best Sellers Rank: #684,868 in Books (See Top 100 in Books) #83 in [Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Estimating](#) #104 in [Books > Crafts, Hobbies & Home > Home Improvement & Design > How-to & Home Improvements > Contracting](#) #179 in [Books > Arts & Photography > Architecture > Project Planning & Management](#)

Customer Reviews

Great book for 30 bucks, compared to the 300\$ version, even if it is just "remodel" information, most of the data are the same, you just have to spend some extra time sorting through it for new construction decisions. Things like 10ft vs 12 foot ceilings, french vs sliding doors, brick vs stucco vs hardiboard. Makes for a much more intelligent discussion with the architect and the builder. From the Art of War - know your opponent. This book contains real pricing data unlike most of the other "estimating guides" out there like the Dewalt ones.

I purchased this for a friend that does contracting jobs because he was grossly underbidding his jobs. Once he got this book he uses it on all of his jobs and found out just how much money he was using. It's also a good backup when his customers want to argue about the quotes he makes.

Great for my company

Has been very advantageous in my startup. I don't use the prices, but really great in showing me more parts of jobs that I may have overlooked in my bids.

It's what I asked for, pricing for everything!!!

I have been a builder for over 60 years. I find it a useful tool to help a good estimator. There numbers have to be adjusted by personal experience. So my rating says use with caution.

This book contains the information I need for bidding projects in my business.

Book was informative, not a waste of money for sure
