## Customer Reviews

"Harris and Marritt's combination of intelligence, enthusiasm, attention to detail...and high ethics [make]...this book not only an outstanding gift to the public, [but] a gift to all hair replacement specialists."

James Harris, MD, FACS, received his medical degree from the University of Colorado School of Medicine. A facial plastic surgeon, Dr. Harris—s practice is limited exclusively to follicular unit hair transplantation. Emanuel Marritt, MD, received his medical degree from New York

University. For over twentyfive years, he has specialized in the field of hair transplantation.

I bought the book and Dr James Harris did my hair transplant, both were a waste of money.

With all the hype and rubbish available on the Internet, it is sometimes more sensible to obtain authoritative information from reputable sources. For those who are at any stage of the balding process, the Hair Replacement Revolution is an indispensable guide to navigating what options are available. The title may be a bit misleading since the book covers everything from the psychology of hair loss to the latest advancements in pharmaceuticals. Written by reputable authors, I fully recommend this book.
