French In Action: A Beginning Course In Language And Culture: The Capretz Method, Third Edition, Workbook Part 1 (English And French Edition)

Synopsis

Since it was first published, *French in Action: A Beginning Course in Language and Culture*—The Capretz Method has been widely recognized in the field as a model for video-based foreign-language instructional materials. The third edition has been revised by Pierre Capretz and Barry Lydgate and includes new, contemporary illustrations throughout and more-relevant information for today's students in the Documents sections of each lesson. A completely new feature is a journal by the popular character Marie-Laure, who observes and humorously comments on the political, cultural, and technological changes in the world between 1985 and today. The new edition also incorporates more content about the entire Francophone world. In use by hundreds of colleges, universities, and high schools, *French in Action* remains a powerful educational resource, and the third edition updates the course for a new generation of learners.

Customer Reviews

"Unique in its magnitude, versatility, and state-of-the-art method. . . . A real breakthrough."—Antoinette Shewmake, *French Review*"The closest thing to a total immersion in language and culture short of a trip to France. . . . Capretz and his colleagues have set a new standard for foreign language teaching materials."—Roger Neff, *Modern Language Journal*"[A]n entirely new feature is the journal maintained by the ever-popular character of Marie-Laure. . . . It is exactly this aspect of the third edition that will keep students interested in

using French in Action. . . . I also like the fact that the latest edition of French in Action incorporates much more material on the entire Francophone world. . . . [T]he third edition comes complete with concise grammar explanations that support the grammar exercises in addition to thirty pages of conjugaison des verbes types." --Eileen M. Angelini, The NECTFL Review "I have been an unconditional proponent of French in Action for 14 years and continue to use it with great success. Why? Because French in Action is the only text that allows French to be taught without using English. The pedagogical sections of the videos and not the English language serve as the reference point for the text. Where events have overtaken the movie (i.e., the euro, the Internet, le téléphone portable, etc.), it is easy for a professor to continue to use the videos and all the mise en oeuvre questions with minor updates." --Jeffrey H. Fox, College of DuPage --This text refers to the Hardcover edition.

Pierre Capretz is the creator of French in Action and a pioneer in video-based foreign-language instruction. He taught French at Yale University from 1956 to 2003 and was director of the Yale Language Laboratory from 1963 to 2000. Barry Lydgate is professor of French at Wellesley College.

Now THIS is a French home study worth every cent! With DVDs, a coordinating text and a workbook, learning just happens. The DVD content was developed by knowledgeable educators. There's instructional classroom time. An entertaining video of French people going through daily life to reinforce what was taught in class. Other French media is also included to add cultural interest. I've tried several other means of learning the language. This one is superb!

Perfect - love this textbook
