Synopsis

This book is a masterpiece. It is a non-fictional book. It contains firsthand account information of some of the alleged murders, tortures, and disappearances that had taken place under the administration of Gambia's iron fist dictator President Yahya Jammeh. The author had interviewed a wide range of sources-some of whom are still serving in Mr. Jammeh's administration, while some of the sources have parted company with the Gambian dictator. You will be missing out a great wealth of information by not buying a copy of Mr. M'Bai's book titled: "The Untold Dictator Yahya Jammeh's Story" This book contains fascinating and horrific stories that one could ever imagined that it is taking place in an impoverished country-which received less international press coverage-largely due to its size. The Gambia is less than the size of Delaware. It has been transformed as a murder land under dictator Jammeh's watch. Grab a copy of Mr. M'Bai's book and learn firsthand information about what it means to live under a dictatorship in Africa. This is one of the most informative books ever written so far about the Gambia, and its delusional leader Yahya Jammeh, who claims to have discovered the cure for HIV/AIDS, asthma, diabetes, high blood pressure, Infertility, among other diseases. You will be amazed by the amount useful information contained in this book. Mr. M'Bai's book is also a catalogue of murder mysteries, documented cases of gross human rights violations, endemic culture of corruption, and rule of law crisis in a third world country, called the Gambia, whose leader Yahya Jammeh came to power through a military coup as an army Lieutenant. Just finish reading the book and to be frank the author could have done better. The first chapter talks about the case of Deyda Hydara which to me makes no sense to start a book about dictator Jammeh. I understand the mystery surrounding his death and the relationship between the Author and Deyda. I think an intro about Jammeh and the events leading to July 22 1994 could have been a better chapter to start with. I did not read anything about July 22 1994 in the Book. Chapter 14 (THE MOST SIGNIFICANT EVENTS IN US HISTORY) was not needed for this book. Lots of repetition about same events. The Author should have work on his dates, Chapter 2 starts with "On Tuesday August 28". My question is what year? in chapter 3 he also mention " President Jammeh last night " again what date? for future readers. I understand and support Mr. Mbai's efforts to exposed Yaya Jammeh and his cronies, but i really think he could have done a better job of exposing Jammeh and his regime's atrocities by taking his time and research more about Jammeh. The book is not in chronological order. Hopefully the Author will come up with a better one in the Future. Thank for your effort in helping to expose this criminal.

The book is full of material information that can help investigating bodies to follow in pursuit of human rights violators in The Gambia .it further exposes that a country without a proper rule of law, is at the determinant of the masses. though hastily written, the details in the book are overwhelming and should be an eye opener to all Gambians .

Great book. It was full of detail.

Interesting, but poorly written.

This is the first hand evidences that has revealed how Yahya Jammeh continue to harm his country men and women with impunity to those carrying out henous crimes against humanity. Long live Gambia down with Dictator Jammeh.

The book is so easy to read and understand, a primary school graduate like my humble self did'nt have to struggle to comprehend it.This is a job well done.
