## Customer Reviews

My son started reading this series at school, he was so interested i've kept buying the next book

and he loves reading them. Great book series!

My 6 year old loves Jack and Annie books so of course this one was a hit too! It arrived promptly as well.

I've been reading the Magic Tree House series on the phone with my grandson for the past 3 years. The stories are entertaining and informative, and progress in concert with his reading skills. He loves to read these stories.

Daughter loves all these books and we love that she enjoys reading.

This was the first Magic tree house story we read, then started the series from book one, this is our second time through the series!

My daughter loved this book and wants to read more of these!

Really good reading level book for 1st and 2nd graders.

We have bought a number of the Magic Tree House series for our grandson and he loves them all, and even does the online test afterward. I understand that they are supposed to be 3rd grade level reading, but our grandson is 7, so if you have a good reader who is interested in learning about things as well, it is a good choice.
