Customer Reviews

I have used this book in my Spanish IV class. I took advantage of the accompanying CD. It is an intriguing story that acts as a "punto de partida" for many oral and written activities. This is a fantastic resource for anyone teaching an advanced level Spanish course. Not too hard, not too easy - just right. It has a good combination of cultural and linguistic materials and also has a great balance between auditory comprehension and reading comprehension. This is a formidable teaching tool!

Captivating story to improve Spanish reading skills.

Good mid-beginner Spanish book

Good story. Be warned though, not all chapters are on CD. If you read instructions it will be clear.

I have all of the level 1 books in this series. I've just started listening/reading level 2. Fun stories and very helpful.
