Customer Reviews

I will give this book a vibrating I chose this book because my mother is in kidney failure Stage 5 and I really would like my mother to live a little longer she does not want to die so I'm trying to look for other alternative. Especially home remedies things that I know that could help my mother in her

kidneys probably live longer she is not a candidate for dialysis.

This book is a scam. It does tell a few things about CKD, but offers no treatments or diets or solutions of any kind. It has a link that takes you to a website that sells other things. Don't waste your money.
