Customer Reviews

Not only did I purchase the laminated version with grommet and get the non-laminated, non-grommets version, but this poster was beat to hell upon arrival. Some of that can be attributed to carrier abuse, but we have gotten the same poster in the past from different vendors without any damage at all. It's so beat up, I doubt I could get any refund if I returned it. Very disappointed that I got 20" x 26" heavy paper (ISBN 9781587791383) when I ordered 20" x 26" heavy paper laminated with grommets at top corners (ISBN 9781587791376).

As I am a practicing reflexologist, I needed a chart that shows some foot pathologies plus foot construction. This chart is perfect. It looks great matted and framed on the wall in my session room and it is right next to my framed reflexology chart.

Came wrinkled, dirty and creased. Looks like a two year old had their way with it coming out of the package.

Just be prepared to pull out some heavy books to flatten this guy out. Other than that, it is well made and the paper is high quality.

Arrived in good shape

I liked it but was best if shipped in a tube to avoid getting crunched.

Great.

Arrived damaged & unusable, so returned.
