# Philosophical Problems: An Annotated Anthology, Reprint (2nd Edition)

## Synopsis

Edited and assembled by one of philosophy's foremost scholars in collaboration with a distinguished teacher, this introductory anthology offers both a classic and contemporary primary source readings and schools students in developing distinctly philosophical habits of mind. In addition to the fine selection of primary source readings, this anthology offers a unique array of pedagogical features that, together, form a "roadmap" for thinking philosophically. These features begin with an introductory essay, followed by chapter introductions and marginal annotations that accompany the readings, and conclude with discussion questions and an appendix on writing about philosophy.

good book came on time

A good intact book that gets the job done!

Everything was great!

It looks old but quite good!!

I did not get this book in that great of condition but that does not change the knowledge the book has to offer. It is a good read for the curious.

So the product was listed as new, which upon inspection it wasn't b/c there was a tiny bit of usage shown on the edges of the cover of the book. Other than that though, it was clearly in excellent conditions as there wasn't anything bent or written on anywhere so overall I was still content with my purchase. :)

The book was great for the price. It was cheaper than at the book store. There was some water damage, but the book is still usable. When I had a question about the book, I got an answer back about it quickly. I would do this again.

Baker and Bonjour lead you step-by-step through a survey of western-tradition analytical philosophy, full of humor and insight, excellent primary sources, and unbelievably lucid commentary. Their method is very accessible, and even a raw beginner can quickly find him/herself immersed in philosophical inquiry without feeling lost. They take a topic the average American finds very esoteric, and show not only how relevant it is, but how anyone can do it. An excellent choice for someone who wants to get a grip on philosophy but feels daunted by traditional approaches, or wants to learn on their own.
