## Customer Reviews

"Here's an easy-to-follow book that takes the reader step-by-step to get to a successful business start-up." San Francisco Examiner

Whether you are starting your own home-based business or launching a brick-and-mortar operation

with employees, you're going to need an effective financial plan, and this book is your comprehensive guide. The 12th Edition is completely updated with the latest laws and banking regulations, plus an expanded collection of resources.

A great help in writing a business plan.

loads of information

Good info

As advertised

fast service, important and timely book

amazing book

One of the peskiest things to accomplish for some strange reason for some of us Right brained people. We have the vision, the smarts and heart but a n excellent business plan is ESSENTIAL!! I love the Nolo series. I bought the "Dummy" one for this subject but the Nolo book is really helping me push ahead and im thrilled that I can finally see our organization on paper with economic projections and terminology. Will help w any graphs you may want to make later as well, because your biz plan will start to make sense. (or you can clearly see the holes in the project!)

Best business plan book ever! I love the several examples provided to simplify things like cash flow, balance sheet. And there are RTF samples that guide you.
