Great book. My cousin was there and it speaks about him in the book. It is a good and easy read about the personal trials and tribulations and how the brotherhood and watching each other's backs are the main concern of each soldier that is fighting for their country and their own lives.

Franklin Kestner's book is a must read for all of us interested in the trials and tribulations of the average GI's life in combat. Franklin has an unusual way of isolating all the frustrations associated with the Military life and putting it in terms we can all appreciate. I would suggest that if you found this book interesting please read his book TO THE LAST MAN about his experiences with Company D at the Chosin Reservoir. His email address is DAWG21@AOL.com He is an exceptional individual.

This book is a "must read" for anyone interested in learning about the Korean War. The day to day experiences of Sgt Kestner are riveting. You won't want to put the book down. This book should be in every reference library concerned with the Korean War. Wes Guthals, Lt.Col. USAF(ret).

I was impressed with Mr. Kestner's ability to realistically depict army life throughout a war that has eluded historical notoriety on a grand scale. It was a great read and I also enjoyed seeing all the

photos. I highly recommend this book.
