Theory And Practice Of Group Counseling

Synopsis

THEORY AND PRACTICE OF GROUP COUNSELING, 9th Edition, gives readers an in-depth overview of the eleven group counseling theories. In addition to illustrating how to put these theories into practice, this best-selling book guides readers in developing their own syntheses of various aspects of the theories. With Corey's clear, straightforward writing style, readers are able to grasp each theoretical concept and its relationship to group practice with ease.

Customer Reviews

"This book is a well presented, comprehensive textbook on group counseling practices, ethics, techniques, and theoretical application." "This is an effective group counseling textbook that breaks down group counseling from the crucial components of leadership, ethics, stages, skills, and techniques and then enhances it with application to different populations and integration of group counseling theories." "This is an excellent textbook that provides both a beginning and advanced understanding of the theories and practices of group counseling. It includes a thorough, yet concise review of the basic group process and practice. It provides a clear understanding of the theoretical underpinnings of key assumptions and techniques of each theory and illustrates their application to groups in action. I recommend this book to all students and professionals with the goal of enhancing their theoretical application to their practice of therapeutic groups." "This is the best book on the market for use in teaching a Group Counseling Class. It is very readable and my students enjoy it very much. I find the integrative emphasis to be valuable for future counselors. The sections on

school counseling, multicultural issues, and the balance between theory and practice make this a thorough, well-rounded textbook."

Gerald Corey is Professor Emeritus of Human Services and Counseling at California State University at Fullerton. He received his doctorate in counseling from the University of Southern California. He is a Diplomate in Counseling Psychology, American Board of Professional Psychology; a licensed psychologist; and a National Certified Counselor. He is a Fellow of the American Psychological Association (Division 17, Counseling Psychology; and Division 49, Group Psychotherapy); a Fellow of the American Counseling Association; and a Fellow of the Association for Specialists in Group Work. Both Jerry and Marianne Corey received the Lifetime Achievement Award from the American Mental Health Counselors Association in 2011, and both also received the Eminent Career Award from ASGW in 2001. Dr. Jerry Corey was given the Outstanding Professor of the Year Award from California State University at Fullerton in 1991. He regularly teaches both undergraduate and graduate courses in group counseling and ethics in counseling. He is the author or coauthor of 15 textbooks in counseling currently in print, along with more than 60 journal articles and book chapters.

If you've read one Corey book you've read them all. He has a tendency to drone on. I always walk away from all of his books thinking "that could have been a lot shorter".

Text book just what I needed

I had to buy the electronic version of this book because the seller did not ship my book. However the book is still an excellent book. I have learned a great deal from it.

Shipped very quickly, easy to read book, but a lot of information. It occasionally jumps from one theorist to the next without warning or indication, which can lead to some confusion if you aren't reading carefully. A great book for those interested in group counselling

Definitely need this book to pass the Social Work licensure exam! Rentable! But I may buy to have on hand.

The book is in excellent condition

Of all the text books I have had to read, I like Gerald Corey's the best. They are an easy read and give a lot of good info.

Product arrived in timely manner and the quality of the product is as described, thank you.
