# Early Rock Instrumentals: Guitar Play-Along Volume 92 Book & Online Audio

## Synopsis

(Guitar Play-Along). The Guitar Play-Along Series will help you play your favorite songs quickly and easily! Just follow the tab, listen to the audio to hear how the guitar should sound, and then play along using the separate backing tracks. The melody and lyrics are also included in the book in case you want to sing, or to simply help you follow along. The audio is accessed online using the unique code inside each book and can be streamed or downloaded. The audio files include PLAYBACK+, a multi-functional audio player that allows you to slow down audio without changing pitch, set loop points, change keys, and pan left or right. 8 songs: Apache \* Guitar Boogie Shuffle \* Raunchy \* Rawhide \* Rebel 'Rouser \* Sleepwalk \* Telstar \* Tequila.

## Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

Hal Leonard Corporation has released well over 100 of these book/CD collections for guitar over the years, and some are much better than others. Unfortunately, for the Early Rock Instrumentals

collection they used inferior backing tracks (common on some of their more recent collections that include software on the CD for varying tempo), and have included several tracks of questionable value. "Telstar," for example, is not especially effective, because in the most famous version, an electronic organ carries the tune, as is the case in this version. Great for practicing rhythm guitar, but that's probably not why guitarists purchase a book/CD set such as this. Perhaps it was because of licensing issues, but there were plenty of other thoroughly guitar-based instrumentals that could have been included instead. Link Wray's "Rumble," for example, would have vastly improved this collection. Some of Hal Leonard's publications unquestionably are in the "must have" category, but this isn't one of them.

I got this for Apache. This is not what I hear when I listen to The Shadows do it. The only other thing I might like to do is Tequila. The Tequila is horrible. This book is a total waste for me.

You learn the song by reading and practicing the music. Unless your a trained musician I think you would do better to find an online tutorial of the songs with a teacher who shows you the fingering. I can read music but a the online tutorials show you a lot of tricks that you won't get from a book.

love these books

great for learning songs on guitar

This books is great - and it is one of two early rock book-cds in my collection (the other being The Ventures). Highly recommended for intermediate guitarists who love that Fender, 60's sound.

Easy to use. I'm just a little above a beginner and I was able to play the songs in this book.

very satisfied- I have a lot to learn...
