Customer Reviews

Gene Siciliano, C.M.C., C.P.A. (Los Angeles, CA) is founder and president of Western Management

Associates, which provides financial management consulting services to corporate clients. He is a member of the National Speakers Association.

Interesting book.. for the price it is a good to have! It gave me some reminders on basic finance / accounting.. I work in a financial related field but not as a financial expert so it was a good way to understand some basic principle. Very nice. For the price, you can't really go wrong.

This book has been very informative, I would recommend it for anyone who wants a good understanding the how and why of finance. If you are looking for detailed accounting and higher levels of accounting techniques this is NOT the book for you.

Excellently written book! Loved it! All important topics covered and explained with great detail in very simple layman terms. Thanks!

I got this for some of our newer managers and it is a fantastic aid.

Great online textbook! Helped me a lot during the course. To find answers quickly, highlight the main points, and put notes for myself wherever I needed. Great book for those who don't like finance!

I had to purchase this book for a business class. I enjoyed it very much and retained a lot of information. I will keep the book for future references.

Excellent Book. Covers all the right topics, at the right depth.

For a non-financial administrative career professional, I've found what I've read thus far to be interesting, comprehensible and enlightening. Highly recommended for anyone who desires to delve into an area that's essential to becoming a well-rounded asset to their employer.
