The Indie Producers Handbook: Creative Producing From A To Z

Synopsis

Myrl Schreibman has written a comprehensive and practical, step-by-step guide for organizing and running a film from pre-production through post-production and delivery. This invaluable resource provides fundamental tools to produce a more thorough, more organized, and more professional film production. Packed with engaging and useful anecdotes, Schreibman provides a superlative introduction and overview to all of the key elements in producing for film and television. Useful to film students and filmmakers as a theoretical and practical guide to understanding the filmmaking process, Schreibman fills his manuscript with practical examples from his considerable personal experience in the film industry. Loaded with insider tips to help filmmakers avoid the pitfalls of show business.

Customer Reviews

A terrific and easy read. As a screenwriter, it's like reading the other team's playbook. Tons of great information. Highly recommend for anyone in the industry that wants to know more.

This book is not the most exciting to read, but it is packed full of useful information and guidelines to follow if you are interested in becoming a producer. It covers everything from pre-production to post-production. Honestly, this is a very comprehensive guide full of informative anecdotes and great tips. I use this book often as a reference and strongly urge young producers everywhere to read it. Producing is an art and you should treat it as such. This book breaks the ice on developing the craft of producing.

Gift that was requested.

The Indie Producers Handbook is a must have in your library. It really gets into the technical aspects like spreadsheets etc. If you don't think you need math to be a producer then go home. I opted for the kindle edition and am ordering the paperback too.

Perfectly combs over all aspects of filmmaking. The book even provides references to other cites or books for further exploration on less discussed topics. There are also very helpful contract templates in the back of the book that are immensely useful.

Very readable and extremely helpful although it is a bit dated now.

very helpful

good to have
