Stan Lee's How To Draw Superheroes: From The Legendary Co-creator Of The Avengers, Spider-Man, The Incredible Hulk, The Fantastic Four, The X-Men, And Iron Man

Synopsis

The third installment in comics icon Stan Lee's series showing readers how to draw some of the most exciting and dynamic superheroes of all time. Spider-Man, the X-Men, the Fantastic Four, Iron Man, the Incredible Hulk, and the Avengers all share a common trait -- these hugely popular Marvel Comics superheroes were co-created by the legendary Stan Lee. Now, Lee shows readers everything they'll need to make their own mighty superheroes, just like his classic creations. Lee exposes his secret tools and techniques for bringing strong, inspiring heroes and heroines to life. He even shows aspiring creators how to expand their super-universes with evil villains, trusty sidekicks, brutes and monsters, super-pets, secret hideouts, and more! These invaluable insights from one of the greatest superhero creators of all time are must-haves for all fans of Lee's legendary superhero comic work.

STAN LEE is an icon in the comic book world. He is the co-creator of the Mighty Marvel Universe and such classic and immortal characters as the Avengers, Spider-Man, the Incredible Hulk, Iron Man, the Fantastic Four, Daredevil, and the X-Men. He has conceived more billion-dollar franchises than any other comics creator, and more than 2 billion comics based on his creations have sold in more than 75 countries and in 25 languages. Stan Lee is the former president and chairman of Marvel Comics and was awarded the National Medal of Arts in 2008. He is currently Chairman Emeritus of Marvel Comics and the Chief Creative Officer of POW! Entertainment.

Superheroes inhabit wild and weird worlds. However, they're visually composed of some basic building blocks. In this chapter I'll give you some pointers on how to draw superheroes based on the wild and wonderful world around us as well as the world that's aching to burst free from your fevered imagination!

I wish the book contained more diagrams or step-by-step instructions. It is a good book, filled with a lot of information, but reads like a Marvel History textbook rather than a specific "here is how to draw this character." There is about fifteen pages of actual multi-level drawings that you can follow, of mostly b-list comic heroes.

It has a lot of illustrations about past comic books faceplates, history, but very few diagrams about how to draw super heroes. I bought this book thinking they will teach you how to draw spider man, iron man, venom. Not other less know heroes. I think it is more helpful the version released in 1984. At least for me. This book was not what I expected.

Lot of fun

I fell in love with these in a sec. I recommend to buy this with Stan Lee How to draw Comics

Great book for the beginner or advanced artist.

It really helped me understand what it's like to draw and create the backstories of different superheros and supporting characters!

Very good resource for comic drawing.

my son loved this book.
