Raising Respectful Children In A Disrespectful World

Synopsis

This inspirational parenting guide offers proactive and positive steps to raising respectful, engaged, and grateful children. In an effort to raise children with a healthy view of themselves, parents often focus on self-esteem rather than self-respect. And author Jill Rigby says there's a big difference. It's the difference between self-centered and others-centered children, the difference between performance-driven and purpose-focused teenagers. *Raising Respectful Children in a Disrespectful World* examines three different styles of parenting – parent-centered, child-centered, and character-centered. Parent-centered parents are more concerned with their own agenda than their child's best interest. Child-centered parents are more concerned with their child's approval than their child's well-being. Character-centered parents are more concerned with their child's character than their child's comfort. Drawing a distinction between performance and purpose, this book maintains that rather than focusing on what you want your child to do, you ask what you want your child to become. Finally, Rigby calls for parents to discipline (teach) their children rather than punish them. With wisdom and insight, Jill Rigby shares age-appropriate ways to set boundaries with children without building walls of separation. Whether you're parenting tots or teens, *Raising Respectful Children in a Disrespectful World* offers valuable advice for cultivating a house of respect.

This book has been a great reference for my Parenting Group. In fact we are thinking of using the small group studies next spring. They are put together in a way that will make leading much easier. This is a timely subject and peeked the interest of the parents.

This book was so helpful and well written. It helped me with some new techniques in my child rearing. I am very grateful to the writer for this awesome book. I have already recommended it to several friends of mine with small children.

This book goes back to no nonsense child rearing. All too many of today's young children think they are the center of the universe and all things revolve around them. It's time to teach respect again. Respect for their elders and respect for themselves. The self-esteem model has been a miserable failure. READ THE BOOK.

This is the best parenting book I've read, and I've read a lot! It's common sense, unlike so many popular theories of parenting. It focuses on God-centered parenting vs child-centered or self-centered. Excellent!!

Every parent who desires to raise respectful children should read *Raising Respectful Children in a Disrespectful World*. Filled with insight and practical truths, parents will find themselves refreshed and ready to put into practice the sound advice found here. This book is among the most relevant to the needs of today's children that I have read.

Great book and I'm only in the beginning!

This is it! Why kids are so self-focused, rebellious, and out of control. They don't respect anyone. Start early and don't give up. The kids will respect themselves more too.

Jill Rigby is one of my favorite authors for child rearing topics. She gives some great ideas for teaching respect to your children. I highly recommend this book.
