Developmentally Appropriate Practice In Early Childhood Programs Serving Children From Birth Through Age 8

Synopsis

Since the first edition in 1987, NAEYC's book *Developmentally Appropriate Practice in Early Childhood Programs* has been an essential resource for the early child care field. Fully revised and expanded, the 2009 version comes with a supplementary CD containing readings on key topics, plus video examples showing developmentally appropriate practice in action. Based on what the research says about development, learning, and effective practices, as well as what experience tells us about teaching intentionally, DAP articulates the principles that should guide our decision making. Chapters describe children from birth through age 8 in detail, with extensive examples of appropriate practice for infant/toddler, preschool, kindergarten, and primary levels.

Customer Reviews

Use this book frequently in my college Early Childhood courses. Contains lots of very useful information regarding developing children. Has chapters for each year, beginning at birth all the way to the elementary years, with breakdowns of appropriate practices and "what to expects." Highly recommend for Early Childhood teachers and caregivers. Great research-based information with suggestions. Corresponds with NAEYC articles on NAEYC website.

I have not opened the book other than just to browse through it prior to actually using it during my lecture classes. The book seems very practical and easy to get through. Again the condition is amazing.

It helped me to look at my lesson plans in a different way, I can't do a lesson without thinking of the appropriateness for my students.

Slightly soiled and CD missing.....Otherwise OK

Only needed select pages in this book for the class I was taking. Information is pretty good. The book was in decent condition when I received it.

Well set out and easy to use.

Great recourse book for my grad program !! I was able to rely my study and implement to the text book.

Product accurately described. Easy transaction.
