Customer Reviews

I chose this rating because all of these Traps and Tricks work they are awesome!! What I loved about this book is all of the cool tricks I haven't thought of yet! I would recommend this book to all minecraft lovers who love mechanisms and house protection ideas! :)

Even worse than the last one. Every mine rafter knows that mobs have a path finding ability and won't fall into lava on their own, zombies aren't drawn to signs, and the lapis pit would have to be at least nine chunks deep, otherwise, players will be able to see the bottom.

This is a good book although there are a lot of monster traps and if you play in peaceful those traps won't help you. It has good ideas and the fake water trick is awesome. ã ã ã^f

I love this book because it says there are a lot of traps and I love traps because it prevents from people trying to take your stuff like DIAMONDS.
