Customer Reviews

If you're looking for a home 2 years from now or a first time home buyer, the book is worth a purchase. Most people know the terms around buying a home but do not really understand what they mean. It's a good resource before talking to any real estate agents or mortgage companies.

Although I did not attend the conference (which I regret daily), I did get the live streams to ensure I was getting quality information. The information provided in this book places me and my family in the right path to Home Ownership and is a guideline that most "gurus" won't provide. I look forward to learning more from you.

Very informative and inspirational

Jay great book my dude! Simple read for anyone seeking their way to home ownership. Can't wait to share this book with some of my compadres.

Clear and to the point, in simple understandable language and steps. Good companion, for anyone cleaning up their credit to buy a home, or thinking about what it takes to purchase property.

Very basically, practical guide to home buying. Gives short but powerful definitions of terms associated with real estate, primarily for first-time home buyer. Great book!!!

Definitely recommend this book to anyone looking to purchase that 1st property. Short but straight to the point. Jay never disappoints.

Excellent breakdown of the home buying process without over-complication. I would recommend this book for First Time homebuyers need this as a overview and tool they can reference along the journey. Jay Morrison did a great job at delivering this important information in quickly and concisely!
