Having grown up in Ireland and spent much of her childhood outdoors, Lindsey Boylan developed a profound love of nature, which she incorporates into her artwork. Other sources of inspiration include Amsterdam, her current city of residence, and her extensive travels throughout Asia.

This is my second book by Lindsey Boylan where the backgrounds are pre-filled in with flat mat black and the design stretches over the entire page from side to side. I really love the way that my coloring pops off the page with this style. I have found that my

pastel and neon colors really show up in a whole new way. There are 31 designs in the coloring book and they are all quite imaginative. The artist has filled in the animals with lovely flowers and motifs to making coloring them even more fun. I am a huge fan of animal scenes and having them with the black background makes this a new and unique book in my coloring collection. There are many animals in the book, including a gorgeous howling wolf, a rabbit, some mice, and even an owl. The animals are set in an imaginative forest with lots of great plants and flowers to color. Creative Haven books are always a good quality paper and my pencils and gel pens generally work well with them. My markers almost always bleed through. Not too worry, though, as they only print designs on one side of the page. The backside is left blank. If you don't remove the page from the book to color, you should put a piece of freezer paper, cardstock, chipboard, or even a couple of sheets of good weight paper behind the page as you work so it won't bleed through to the following page. If you do remove the pages, the publishers have provided nicely perforated pages for easy removal.

I am a new, soon-to-be 70 coloring addict. Most of the animals in Midnight Forest have a special look to their faces--sweet, stealthy, watchful, cuddly, and their surroundings are interesting. This is a great book for those of us entering "A Room of One's Own" for the first time, trying out different pencils, gel pens, markers, etc. The small spaces are not too small and the larger areas are not too big. Thus, you can learn what you want from other coloring books (I already have eight--many from Creative Haven--because I like diversity.) One day I'm in a dark, beautiful jungle and the next diving in the ocean. If you have not tried these black background books, you are missing a fun experience. Don't forget to give it sparkle over the colored pencil work. After all, there's a full moon to catch the colors.

First of all, I just love Creative Haven Adult Coloring Books. I bought this one and was so excited for it to arrive!!! My granddaughter came home from school and saw it and fell in love with it - she is almost 10 years old and loves to color with me!!! She was so enchanted with this book that I gave it to her so I haven't used it yet but she has done a couple of pages and it is her favorite book! I did order another one which I should get this week! As for the quality, pictures, etc.... as with all Creative Haven books - they are just awesome!!!!!!

Great pictures, good paper. Easy to remove pages to work on. Black background is great! Makes colors really pop.

Update: I contacted Dover Publishing and I couldn't have gotten better customer service. They offered me any book on their site of equal or less value to replace the Midnight Forest. Great customer service is far and few between this day and age. The fact that they recognized the problem and offered to replace my book was tops in my opinion. Changed my review to three stars for this. I love the designs in the book the problem is the cheap paper used. My pencils build up and won't separate even with a blender. It's also way too thin. I'm so disappointed in Dover over this book. I have other Dover coloring books that have quality paper. Going to contact Dover about this.

Thick one-sided pages with perforations for tearing out the pages. I have just started on a page that will look great once completed. I like to use gel pens and colored pencils to color with. The pages in this book look like they will hold up to that.

This fun adult coloring book is especially great to use with my metallic colored pencils because of the black paper background, they really pop! Creative Haven produces such beautiful coloring books and this one is no exception. The quality of the drawings is superb. Each design is single sided as with all Creative Haven coloring books, but it is always recommended when using colored markers and some gel pens to put a protective sheet of heavy paper between pages in case of bleed through. You can't go wrong with Creative Haven brand coloring books for the quality and quantity of pages as well as the reasonable price. A great friend to coloring enthusiasts! :)

This is one of the only coloring books that I have that I don't want to mess up the pictures by coloring them. It's a strange thing, but I like all the illustrations and on some of them, I am afraid I will mess them up. It's a bit irrational because when I do finally choose one to color, it turns out perfectly fine and usually very pretty. I love the artwork in Midnight Forest. I also love the Creative Haven books and I have several and they are all my favorites-especially the animal ones. This book is really fun to work in. The paper is a bit thin, but Prisma Color pencils really pop with the black background. I bet gel pens would work okay in this book but may bleed through to the other side, but the bright colors would be really cool with the black. All in all, great artwork. The one sided pages are perforated for easy removal, but the paper is a little thin- not horrible though. Fun Book-next time I use it, I am going to close my eyes and just pick a picture to color and go for it.
