Book by William A Neill, D. J. Hepburn

This out of print book is the perfect field guide to take on a hike or a visit to the park, or just to check out the butterflies in your yard. Just 95 pages long, it is not too big to carry. The authors have provided color pictures and descriptions of all the butterflies one would be likely to come across in the Pacific Northwest. This eliminates a long search through a general reference book and makes most identifications a snap. There is a nice introduction to butterflies as well as taxonomic and common name listings. If you would like to learn about the region's butterflies, this is a fine book with which to begin.
