Unexpected Mate (Aluna Series Book 4)

Synopsis

Eden was born a hybrid wolf with both Alpha and Luna powers within her. Now that she's seventeen, she's expected to find a mate and prepare to take over her pack when she's eighteen, as is tradition. But nobody expected it to be Liam. Liam, the son of Knox and Katie, is the only werewolf born without a wolf. It was an unheard of phenomena until he was born. His twin brother got the wolf gene and Liam is just the leftover. Feeling like an outcast, he never anticipated he'd have a shot at dating Eden, let alone be her mate. Does Eden have enough werewolf in her for the two of them to lead the pack together? To make things worse, something's draining their livestock of their blood.

Customer Reviews

I choose the rating because it is so a five star and I loved everything and I recommend it everyone should read it

Another great one in this series from the outside in. First, that cover is gorgeous. Bethany Wicker has a great eye for covers. Every one is just perfect. The way she brings a uniqueness to the

sometimes bland werewolf storyline is probably her biggest talent. Her storylines are fresh and new and Unexpected Mate is no exception. Eden is a hybrid - being the daughter of the ultimate hybrid, Lena - she's going to be the leader of her pack. Her mate is sure to be someone who is strong and capable - or at least a werewolf. Liam, with a wolf father and human mother, was born without a wolf. He's seen as the weakling of his pack because of it. His father and brother treat him as something other than an equal. So, when Eden claims Liam is her mate, no one is more surprised than him. Since he lacks a wolf, he can't feel it. They get to know each other and as we see more of them, we learn that maybe Liam is the strongest of them all. A fun, entertaining story that even gives us a bit of a vampire storyline. I'm not a were fan, but I've enjoyed this series immensely.

I'm not a fan of werewolf stories, but I'm a fan of Bethany Wicker. Her writing style is engaging and entertaining, and her characters are memorable and flawed, which is just how I like them. Eden, the daughter of Lena from the first three Aluna books, is now of age and preparing to take a mate of her own. Imagine her surprise when she finds herself irresistibly drawn to Liam, a human boy with no werewolf tendencies at all. What does this mean? How can Liam possibly fit into this society? Throw some vampires into the mix, and you have a recipe for one delicious book. I can't even imagine lay in store for the rest of the series!

Next generation! Woo. This may be book 4, but it's really the start of a brand-new series. Eden is the daughter of Lena (the heroine of the first three books). She's set to be her pack's next alpha. She's searching for her mate, someone everyone suspects will be powerful like her. So it's a shock to everyone when she finds out Liam, who happens to be more human than wolf, is her mate. This was a great addition, and a great start to the next generation of wolves. (This one has a little vampire action in it too for all you vamp lovers.)
