Best Sellers Rank: #985,549 in Books (See Top 100 in Books) #34 in [Books > Parenting & Relationships > Special Needs > Hyperactivity](#) #2205 in [Books > Christian Books & Bibles > Christian Living > Family](#) #190018 in [Books > Religion & Spirituality](#)

## Customer Reviews

FANTASTIC book for understanding the person you love with ADHD. I grew up with an ADHD sister and mom, and now I'm married to an ADHD person, and I still learned some things. From the outside looking in, this book has helped me understand their struggles, and not be so quick to get mad. If you are the person with ADHD, you might be surprised by some of what you read, too. My hubby was, and I think maybe he does a better job of coping with some of the quirks of it now.

A

Helpful book!

it was very helpful

This book was a quick, encouraging read! I purchased two extra copies to pass along to two young

Mothers of ADHD children, and they both loved it. One passed it on to another. It is encouraging, and has already been a great help in understanding my unique little granddaughter.

I purchased this book for more practical information in dealing with a child with ADHD. I found that the examples of children diagnosed with this specific problem did not give me practical ideas. The chapter on the use of medication, was probably the most insightful.

My Son has ADHD, our family physician recommend this book. It has ideas on how to help your child focus and how to help the parents not lose their minds.

Starts out encouraging, however, It almost feels as though the stories are tied up too neatly. Feels as though the darkness of adhd is left out and not everyone ends up at the top. Didn't feel as authentic as it could have been. Online forums have been more encouraging. Good clinical review of the dr in the second half of the book.
