# Community Gardens (Urban Gardening And Farming For Teens)

## Synopsis

In community gardens, people of all ages work together to improve their communities, turning abandoned lots and other plots of land into vibrant green spaces. Community gardens beautify neighborhoods, provide residents with nutritious food and flowers, and serve as places to meet and socialize. This exciting title gives teens the information they need to get a gardening project off the ground, from holding the first community meetings to harvesting what they grow. In accessible text, the author provides useful advice on designing the garden, choosing appropriate plants, and preparing the soil, as well as on planting and tending the garden. Photos will inspire readers, and a wealth of resources is provided for further support.

## Book Information

Series: Urban Gardening and Farming for Teens (Book 3)

Hardcover: 64 pages

Publisher: Rosen Classroom (January 1, 2014)

Language: English

ISBN-10: 1477717773

Grade Level: 7 - 12

## Customer Reviews

Gr 6 Up—Tasty tomatoes, sweet honey, the freshest eggs, and crunchy pickles: Is there anything that motivates a teenager like food? These five books strike a terrific balance between the why and how of homegrown food production, addressing issues such as ethical farming practices, fertilizer runoff, urban blight, food deserts, and more. Kids will learn how to set up a worm bin, make jelly, raise chicks, harvest honey, and look for grant money and donations to start a community garden. That's a lot of content, but, luckily for readers, the texts are studded with sidebars on

exciting subjects like Africanized honeybees and chicken crime-scene analysis (chickens have lots of predators), as well as examples of teenagers who have started successful charitable or business projects. High-quality color pictures of kids working or clowning around in school or community gardens provide credibility and lighten the mood. These books emphasize environmental, social, and health awareness in a fully modern context and will provide inspiration and research leads for school projects as well as home or community activities.
