I love to read books about child psychology. They soothe and inspire me. I have read many of these

books and I definitely like this one! A lot of useful information, a lot of practical advice. Most importantly - it feels that author loves and respects children. Many advices I already knew, but I also discovered something new. Raising children - not an easy process. Reading books like this is very useful!

This book is a real salvation! Probably all parents know the complexity of the period of terrible twos. For me it is a real challenge. I felt confused and helpless. I decided to look for advice in books. But not all of them are equally good. I liked this one! Many simple but effective tips, positive view of the author, easy to read. I recommend this book to all toddler's parents.

This book is very positive and provides a lot of helpful information. Highly recommended reading, with great solutions for many situations.

This book has is very reasonable and makes completely sense. I read a lot of psychology books and this book is straight to the point. Love it

EXCELLENT BOOK!! every parent should read it. It gives great tips and assistance to deal with a naughty child. I treasure the information and apply them daily!

Very good book for parents. That book is not similar to majority of parenting books - here you can find good and really working advises. I am very glad that I bought this book, because I found in it a lot of info, that will definitely be useful for any parents. Highly recommend.

Great book! No twaddle, a lot of practical advice. I really needed such book with my oldest child. Now that my son is 2 years old, I feel much more confident. Sometimes there are situations where you do not know how to behave so as not to spoil relations with the child. This book gives you a really good tips, answers to many questions, it adjusts to the positive. I'm glad I found it!

Great book on how to deal with terrible two's
