Customer Reviews

Cori Dantini would love to dress like her paper ladies and explore the world in the same skirts and buns and neat little boots they wear, but she is far too practical for that. After earning a BFA in painting from Washington State University and spending a couple of decades fiddling with brushes, oils, pencils, markers and, most recently, the mouse attached to her computer, Dantini has discovered an organic process involving layers and language. Any meaning found in her work comes from this process. She never begins a project with a message in mind; rather, the materials and her method are what do the talking. It is this mysterious reciprocal quality of art that intrigues the artist and makes her think of her works as visual poems.

Ã Ä This is a lovely coloring book filled with forty cute designs of everything from sweet girls to birds and sayings surrounded by flowers. The designs are all detailed and some have smaller and intricate areas to color. I am able to use a wide variety of coloring medium (see below) and chose to do my first project with colored pencils. The designs have a sketch-book like quality to them. Some of the animals and flowers have a bit of ÄfÄ¢Ä Ä Ä“doodleÄfÄ¢Ä Ä Ä• detail added to make coloring even more fun. The girls have slightly slanted eyes and big round cheeks. There is one especially sweet picture of a young girls riding atop the back of a bird. The girl has her braids flying straight up in the air. This is what I experienced while coloring in this book and testing the paper with my coloring medium. 40 Lovely Sketchbook style designs by Cori Dantini Printed on one side of the page Paper is heavyweight, white, slightly rough, and perforated Glue Binding Designs do not merge past the perforations and most have a frame of sorts around the outer edge of the design. Alcohol-based markers bleed through the page Water-based markers and India ink pens bleed through the page in spots. I use a blotter page below my working page when using these wet mediums. It keeps the ink from seeping through. You can also remove pages before coloring to keep the rest of the book from being damaged. Gel pens leave a slight shadow on the back of the page but do not bleed through. Some pens require additional drying time. Colored pencils work well with this slightly rough paper. I was able to layer and blend easily with both oil and wax based pencils. I was provided an advance reader copy of this book by the publisher.
