Customer Reviews

Hugeness is an understatement. You'll need at least 7 good weekends to get through this one.

I'm blown away that Ben Settle would offer all of his books for such a low price. Ben's style isn't for everyone. He may anger you, he may irritate you, but at the end of the day, he's right. What I like about this book is that there's so much content to go through, you'll go back to it multiple times. It should be a mandatory reference book for all marketers. His principles are applicable to anyone who sells a service or product - and he's entertaining as heck. You won't be disappointed with this purchase!

it's big, filled with great content and plenty 'O' marketing goodness

Worth way more. Slap full of gold. Will read it numerous times

I've purchased several of Ben Settle's products individually and found them all to be immensely helpful. I had several other books on my wishlist and was stunned to see all of his books bundled into one at an absolutely incredible price. It's a heck of a deal! Not only are his marketing tips top-notch, but I have been able to apply many of his suggestions to my blog. He has great ideas for coming up with content, getting your content in front of a wider audience, and growing your business through principles rather than tactics. He writes in a down-to-earth, friendly style and there is a welcome absence of the marketing jargon you find in other copywriting books. This book is one of the best business purchases I've ever made. I strongly recommend this book to anyone who is involved in internet marketing, blogging, or entrepreneurship. You won't be disappointed.
