Chimera #1

Synopsis

When a covert mission goes horribly wrong, a crew of thieves find themselves caught in the middle of a vicious, interstellar holy war. In this debut issue, the crew makes their way across an arid planet, haunted by demons both literal and figurative.

Customer Reviews

If you love Saga (who doesn't??) then this comic is for you! Chimera has all sorts of awesome sci-fi elements, but with definite touches of fantasy (which I am 100% for). For a first issue this is really packed (in the best way...it's one of the best issue #1's I've read picked up this year, and I read waaaaay too many comics). It has plenty of intriguing plot lines already, and we're given just enough information so that we don't feel lost but definitely need/want to keep reading. The characters, Charlie especially, really breathe, and I'm excited to get to know them better. And then there's the art. This comic is just beautiful. The colorful backgrounds and the use of lighting by the artist is especially impressive. I just want to take every single page of this and frame it for my wall. Seriously, read this comic. I had a blast reading it and I can't wait for issue 2!

Chimera was a fantastic read! Even though this was just the first book I already felt a connection to the characters and the story sucked me in right away. Not quite sure what to compare this to, it's definitely an original project, but if you're a fan of any form of fantasy I definitely think this will be enjoyed. Super excited for the next edition!!

5 stars!! Great cast of characters. Story is fresh and original. Can't wait to read the next one. I really enjoyed the world being created in Chimera.

Some of the best artwork I've seen in a web comic. Stunning environments that complement a very young and complex storyline so far. This is one to watch!

I know this is only the first issue but I'm super excited to learn about the world of Chimera and what comes next! The art and writing is great!
