God In My Head: The True Story Of An Ex-Christian Who Accidentally Met God.

Synopsis

In the bleak winter of 2009, Agnostic and dental-phobic Josh Grisetti experienced an accidental prescription drug overdose at a dentist's office, and subsequently had an unexpected encounter with the Almighty Creator of the Universe. During the supernatural encounter, God explained the meaning of life, revealed the mysterious truths behind the writings of the Bible, unveiled the secrets of the afterlife and, most importantly, dramatically altered the spiritual course of one young man's life. This odd, irreverent spiritual memoir chronicles Josh's journey with blunt comic undertones, undercutting the lofty gravitas typically associated with the "heaven tourism" genre (including best-sellers like *Heaven is for Real*, *To Heaven and Back* and *Proof of Heaven*). While making no claims regarding "proof" of God, heaven or any particular theological truth, this true story is an entertaining and thought-provoking journey into the psychology of religion and the existence of God.

Customer Reviews

Fascinating! Wish I could visit with the author. I learned interesting stuff on every page.

Amazing book. You will never look at the dentist's chair or the concept of God in the same way

again.

Great read

Not since Harry Potter 6 came out have I been so unable to set a book down. A real Universalist manifesto, Joshua's story is absolutely fascinating, hilariously honest, and ineffably beautiful. With no exaggeration, it has helped shape my spiritual journey and reinvigorated my love for this life.

Great Book!

Well written!

This story really resonated with me because I have also had phobias regarding dentists as long as I can remember. Very meaningful.

Josh Grisetti's book isn't quite like anything I've read before. Although it has philosophical elements to it, it's not so much a philosophical treatise as it is the story of one man's fascinating journey from atheist to believer amidst the most unlikely circumstances -- an apparently drug-induced near-death experience in a dentist's office. What makes the book so interesting is that Josh refuses to defend, apologize for or even prove his experience with the "God in his head" -- an experience sure to offend fundamentalists as well as atheists. He simply presents it as he saw it, and then offers his transformed life as testimony to its "truth". It helps that Josh is a surprisingly strong writer, able to make sense out of what must have been a terribly confusing experience, and doing it with a snarky sense of humor. In fact, despite it being a life-changing experience, he continually refers to his visit with the Almighty as a hallucination rather than a vision. But, whatever your take on it -- prophetic vision or weirdo trip -- it's definitely an interesting telling of a one-of-a-kind story, and well worth checking out. (By the way, because we share the same last name, Josh and I are aware of each other. But we've never met and, believe it or not, we're not related.)
