Customer Reviews

I adore this book! It's a tad smaller pages compared to a regular size coloring book. The swear words are hilarious. Each page has a second print with blank talking bubbles so you can add whatever words you'd like. Get creative and have fun with it. The pages are nice but do leak through a bit with markers so be sure to tear it out before coloring. Also the pages are not perforated so you have to tear or cut them out. I like to color them and hide them in my friend's mailbox at random moments to give her a great laugh during the work day. However, be careful with that depending on where you work lol. This is a very fun book and had quite funny sayings. If you have a colorful vocabulary like myself, you'll really enjoy this book!

I totally loved this book! And then I loved the page where the author says: "Oh you can cuss better?"

and then draws the same drawings, with blank bubbles so we can do it. Clever! I totally loved this and so look forward to coloring it! And I loved the fast service without ever having to pay extra for it. I am tickled with this and thank you for designing this! The world needs more books like this! Now we can be cartoonists too! I love it! I am SO excited! I am gonna have the best time ever coloring now! Thank you for designing this for the world! (oh and me! LOL)

I really love the comic book effect of this coloring book. You can use lots of bright colors and even make up your own sayings in some parts of the book. The illustrations are awesome and are printed on one side. The paper is thin, so it's perfect for colored, pencils, crayons and gel pens. Because the images are printed on one side, you could put a blotter between pages and use markers. I'd recommend it to friends!

This Adult Coloring book is hilarious! I think I am going to order one for myself. I wish I would've taken a few pictures of the book to share but I was too busy laughing as I was turning the pages checking it out. I originally purchased this as a gift for a coworker and she loved it! It is definitely adult appropriate and I would recommend this book for a good laugh especially after a long stressful day at the office. You might even want to color a few pages and hang them up in your office (Now only if that was allowed and you wouldn't get fired of course)! I really like how the pictures were drawn nicely and didn't have much tiny details to color like some adult coloring books I have seen. This one you can pretty much color and have an ear to ear smile at the same time (kinda like when you were little and coloring)! I especially like the fact that some of the pages in the back are blank so you can create your own. Well if you have a stressful job like mine then I'm sure you can think of a ton of things to make your own! (which I'm more than certain are NOT work appropriate!) Overall this is a very nice adult coloring book for yourself or even as a gift. I know I would love to have this as a gift, which is why I'm debating on getting one for myself, I would just have to remember to hide it from the kids!

I bought this as a gift but I love it so much I'm thinking I need to keep it

I got into the adult coloring books like everyone else with the craze. This one is definitely adult. Lots of curse words in like comic book style. Plus several comic book photos with blank word bubbles for you to do your own or just color. Good lines and nice pictures. It's something different to color anyway.

OMG! This coloring book is amazingly hilarious and fun! I have been working with a bunch of adult coloring books over the years, but this one has to be my favorite. It has funny sayings and phrases to go with the pictures and the coloring book even has a section where you can label your own and be creatively offensive all by yourself. I highly recommend getting this if you have someone in your life who loves to color and has a great sense of humor.

I bought this as a gift and I personally love it. I do hope that my friend does not get offended. I am mostly worried about the "Plow My Ass" page. While I expected swear words I did not expect it to have vulgar sexual statements in it... I did not sign up for that. But it's a funny book regardless and I like it. I like that some pages are blank so you can write what you want.
